

Scott:

I have enjoyed working with North Central Career Centers over the past few years. Not only have I been impressed by the organized approach you and your staff have taken to ensure that everything is ready when an employer arrives, but I have been equally as impressed with the caliber of the individual's seeking employment. We have had the pleasure of hiring a few of those very same individuals, each who have proven to be excellent employees.

Even though everyone's schedules are very tight these days, I truly look forward to getting invited to your career days more than any other event.

Thanks for keeping Heywood on your radar range Scott

Regards,

Tom
