

BUSINESS SERVICES EVENT

The MassHire North Central Career Center is proud to announce our next Workforce Training Fund info session

December 3rd, 10AM-11:30AM

This virtual workshop will be presented by Commonwealth Corp. and will also include information about the state's DIA safety grant that pays for safety training, including OSHA (OSHA is not covered by the workforce training fund).

If your company is considering any kind of employee training next year, the December 3rd workshop will show you how easy it is to apply for funding to train your entire company. The Workforce Training Fund Program provides Massachusetts businesses with the financial resources needed to invest in & improve employee skills, and maintain the economic strength and viability of the Commonwealth's businesses.

Employers interested in attending should contact Scott Percifull at spercifull@masshirenorthcentralcc.com
