

United Solutions to participate in MassHire North Central virtual career fair to expand manufacturing workforce

Leominster Champion

United Solutions, a national manufacturer of plastic product solutions for home and industrial needs, announced that it's seeking to fill several key positions as the Leominster-based company expands operations and develops new, innovative products.

United Solutions is participating in the Super Regional Virtual Career Fair sponsored by MassHire North Central Career Center and other regional career centers on Feb. 10 from 10 a.m. to 2 p.m. The company has a wide range of positions open from entry-level to technicians and engineers and expects to hire 100 full-time employees this year.

United Solutions is looking for candidates to fill the following positions: Process Engineer, Process Technician, Mold Service Technician, Maintenance Technician and Inspector/Packer.

“United Solutions is energized about the future of the company as we have been growing and adding jobs to build a team that will help us continue our success as a leading plastics manufacturer,” said John Bergeron, Human Resources Director at United Solutions. “We’re looking forward to participating in the MassHire Super Regional Virtual Career Fair to connect with talented job applicants who want to grow with us in an exciting career in plastics manufacturing.”

“MassHire has always been a major provider of recruitment services for employers, including live job fairs — a major component in an employer’s recruitment process. With the challenges associated with COVID, MassHire

decided to integrate a virtual strategy into recruitment events by offering an online alternative called Premier Virtual,” said Scott Percifull, Business Representative at MassHire. “This new platform comes the closest to the look and feel of a face-to-face job fair. The process is very user-friendly. We send a link to employers to register and set up a booth and a separate link goes out to job seekers to enter the event. Each employer sets up their own booth, including job postings, information about the company and even videos to promote their company.”

MassHire also provides individual recruitment opportunities for companies and access to a database of jobseekers. www.masshirenorthcentralcc.com
